

Dear Junior Midget League coaches of TSS Photography and Team Apparel,

We have been given an unprecedented opportunity to participate in the Packers Family Night August 7th. Participation in this event by your players is completely VOLUNTARY, but in order to participate at Family Night, it is MANDATORY for the players to participate in the events outlined below from 8/1 – 8/6.

If desired, player participation in the events from 8/1 thru 8/6 can count towards non-contact conditioning practice even if they don't participate in Family Night. This allows some flexibility if they are unable to make some of the practice events the week of 8/9, but full-contact practice cannot begin until the week of 8/17 OR when all players meet the minimum non-contact practice requirements. This is not an excuse to miss practice the week of 8/9 or the team meeting.

If ANY team player misses any of the practices for Family Night week, you MUST have conditioning practice for your entire team the week of 8/9 until the entire team meets the minimum 10 hours non-contact conditioning practice requirements.

We do understand this is unplanned and may affect some coaches/players vacations etc, but the DCPW Board of Directors decided it was too good of an opportunity to pass up and want to give this once-in-a-lifetime opportunity to as many players as possible. The Board of Directors is working very hard to make this happen and we appreciate your patience and cooperation.

At this time, we do not know if the Packers will provide tickets or not. We don't assume they will be, but we are pursuing this to see if we can get some.

DOW	Date	Time	Description
